Commercial version 5.01 of BCWipe released.

1. Enhanced functionality and interface for BCWipe Task Manager
 - Service mode added for more powerful wiping privileges like wiping locked files
 - Hidden and silent operations – can run wiping without displaying tasks and messages on screen
 - Progress of running tasks displayed in status column
 - Terminate running tasks from Task Manager
 - View detailed progress by opening associated log file
 - Show which user created each wiping task (convenient for multi-user computers)
 - More attractive icons added to user interface
2. Additional task scheduling options
 - At system startup – before logon
 - At logoff/shutdown
 - While no users are logged on
3. Expanded use of Wipe Internet History and Wipe Local History
 - Wipe Special Folders task renamed as Wipe Internet History
 - Support for Google Chrome web browser added to Wipe Internet History
 - User Temp folder and Recycle Bin can be wiped with Wipe Local History
 - Wiping of Macromedia Flash Player Cache added

29-October-2010 | v.5.00.1 Beta | driver 5.28

Beta version of BCWipe v.5 announced.
